

# PRODUCT RELEASE

Xinet 2023.10.4

# RELEASE SUMMARY

## Installation

The latest Xinet installation files are found on the IgniteTech software distribution [portal](#). The latest Xinet installation instructions can be found on the [Knowledge Base](#). RH9 requires one additional pre-installation step which is described in this document. If you encounter any issues, please contact our [support team](#).

## Server Prerequisites

- SERVER should be a Red Hat Enterprise Linux (RHEL) Server 64-bit version 9.0 or above
- Should have a valid RedHat subscription to download **codeready** packages

Installer will download the required RHEL 9 dependent libraries and services which require patching to make them work along with XINET.
